

September 21, 2022

Dear colleague,

It is with great pleasure that we extend an invitation to NCER's 7th Annual Scientific Meeting. This year's meeting will be held on February 28th – March 2nd, 2023, at the Fairmont Tremblant, in Mont Tremblant, QC.

NCER enables emergency care researchers to conduct research in all domains of emergency medicine, provides expertise in multicentre trials, provides mentorship, creates knowledge through research, supports knowledge translation, and ultimately improves emergency patient care for all Canadians. To date, we've had 31 protocols presented at the annual meetings resulting in collaboration and participation from other sites/physicians in attendance. NCER has endorsed 45 protocols and investigators have accrued over \$15,840,366 in peer reviewed funding.

NCER is continuing to grow as a network with increased attendance at the annual meetings. NCER has been hosting an annual scientific meeting since 2016. Over the course of 7 years, the number of attendees has nearly doubled. It is our hope that you would be able to attend this year's meeting and see what all the excitement is all about!

Sincerely,

Laurie J. Morrison
Chair, Network of Canadian Emergency Researchers
